Feixiang Ren

Full stack Developer

I am a passionate junior full stack developer, interested in improving user's experience.

My current tech stack includes **HTML**, **CSS**, **JavaScript/TypeScript**, and **React** frameworks, **Node.js** and **NoSQL** database. Familiar with **PHP** and **SQL** database.

Please view my personal website:

<https://jeffrey-r-fullstack.netlify.app/>

Or scan the QR code to see my works:

I used to study part-timely during working through bootcamps, youtube videos, Udemy online academy. I never stopped self-developing, and I am currently a full time uni student and seeking for a part time job opportunity.

Looking forward to have an opportunity that will allow me to work with experienced professionals and contribute to the development of high-performance website and applications.
